Donated by John Damianos. The printing block was used in a linotype printing machine. Linotype presses allowed for the casting of entire lines to be printed at a time. Linotype printing was eventually succeeded by lithograph printing and computer typesetting during the 1960's and 1970's. This printing block was used by the Chicago-based, Greek Art Printing Company that was owned and operated by Aristotle Damianos. The Greek Art Printing Company was responsible for the printing of a wide range of materials, including wedding invitations, invoices, flyers, programs, letterhead, etc., for Greek businesses, organizations, institutions, and individuals in the Chicago area, and elsewhere.
