

OBJECT ID	2001.38.41.D
OBJECT NAME	Bridle Decoration
TITLE	Bridle Decoration
OBJECT COLLECTION	The Barbatsuly Collection (is part of)
MATERIAL	Metal
OBJECT ENTITIES	Barbatsuly, (is related to)
ACCESS POINTS	horse Metal Tack

#### OBJECT DESCRIPTION

A metal chain bridle decoration made of circular chain links. The links at both ends of the chain are larger than the rest, as is the link in the middle.

#### ORIGIN

The bridle is a piece of safety equipment, responsible for holding the bit and the reins in place so that you can communicate with your horse while riding. Riders often decorate the bridle with metal ornamentalations.

#### CITATION

Bridle Decoration, The Barbatsuly Collection, *National Hellenic Museum*, <https://collections.nationalhellenicmuseum.org/Detail/objects/>.
