MATERIAL	Cardboard; Film; Plastic
ACCESS POINTS	Projector Slide Slide Cube

OBJECT DESCRIPTION

Three slides in a plastic sleeve. The slides are of Bridal dresses. The label on the plastic sleeve reads "Costume Slides." Found in box with Barbatsuly collection.

ORIGIN

A slide projector is an opto-mechanical device to view photographic slides. Slide projectors became common since the 1950s as a form of entertainment; family members and friends would gather to view slide shows. In-home photographic slides and slide projectors have largely been replaced by low cost paper prints, digital cameras, DVD media, video display monitors, and video projectors.
