OBJECT NAME	Coin
MATERIAL	bronze
ACCESS POINTS	beard bronze coin horse Man Money Profile Thessalian League Woven

OBJECT DESCRIPTION

Ancient Greek bronze coin:
Obverse: full bodied horse prancing, looks to have a rider
Reverse: possibly the profile of a man's face
seems to have been smashed or run over by something heavy at one point, it is flattened out, without a perfect circular shape and the design on it is very faint

ORIGIN

This coin is from the Thessalian League in Ancient Greece. It dates from 196-146 BCE and is made out of bronze
