OBJECT DESCRIPTION

Set of blank type blocks of various lengths and widths. All blocks are rectangular ranging from slivers to solid blocks. Two slivers appear to be made from wood, while all the others are metal. One sliver is copper colored. Count 29.

ORIGIN

Donated by John Damianos. The printing block was used in a linotype printing machine. Linotype presses allowed for the casting of entire lines to be printed at a time. Linotype printing was eventually succeeded by lithograph printing and computer typesetting during the 1960's and 1970's. This printing block was used by the Chicago-based, Greek Art Printing Company that was owned and operated by Aristotle Damianos. The Greek Art Printing Company was responsible for the printing of a wide range of materials, including wedding invitations, invoices, flyers, programs, letterhead, etc., for Greek businesses, organizations, institutions, and individuals in the Chicago area, and elsewhere.
