OBJECT DESCRIPTION

Achievement certificate from the National Pan-Epirotic Union in America. The award is being given to Konstantine Baphkas for following/keeping the rules of the association outside of Greece. It states that he is from Xlomo in Harbors Greece, but at the time of this certification served as the presedent of the organization Enosis in Chicago.

At the top of the certificate, written in Greek it reads "National Pan-Hellenic Enosis in America" and the writing is surrounded by a thick line making a cloud. In the center of the bottom of the cloud is a circle, which is incircled with the words "National Pan-Epirotic Union in America 1918" and in the center there is a man holding some type of spy glass standing in a rural field. Under the circle there are two pieces of straw that cross that the bottom tips and move out past the circle.

Under the seal and headers is the description of the certificate that is made out to Konstantine. The organization was based out of Boston Massachusetts and Boston is the first line of text of the certificate. At the bottom of the description it is dated as November 15th, 1919 and has the signatures of the heads of the association in the bottom corners.

The whole certificate is bordered with columns on each side, a 'roof' and the 'platform' with two pieces of straw attached by the tips in the center of it.

ORIGIN

National Pan-Epirotic Union in America, founded in 1918.
