

OBJECT ID	F2016.156
OBJECT NAME	Photograph
ACCESS POINTS	Mill

OBJECT DESCRIPTION

This is a black and white photograpy of what appears to be the interior of a mill/ There are sacks along the walls and a mechanism with gears ih the middle. The floor, rafters, and pillars made of wood.

ORIGIN

Mills served a variety of purposes. One of the most common functions is grinding grains into flour, which this picture may be of, judging by the sacks.
