

Dear Ray,
It was a great pleasure for me to receive your good news and
wishes. I have no doubt and, please on earth, I don't know
how we bring it really on earth? Myself believe to us. When at
Piraeus, last spring, I asked some student and their professor
about "Vio of Arma" activity had heard about it.
I happened to be in the State during the last dramatic camp
- the moment the leader pulled me to the street in front of me
people began to sing - you could hear, for me of political importance
I met some others who wanted the student to be killed. This was
some return on their way to Luchman. One of them told me
that he expected to have lots of laughter there!
How can we make American people understand that they are
in a war? Just as the Nazis were - responsible for the mass murder
genocide, etc etc etc they are participating in South East
Asia? And England who supports Korea and the Pentagon!
It is not much better in France as in Scotland. They don't
kill the rats but they remain totally indifferent to what is
happening a few yards away.
In my country little not to talk about.
P.P. is important to tell something about things that are going
away it really is. "We are ready for no armed resistance" - "We
can stand it" etc etc. In reality, ordinary people, the school
children, those who have suffered from the first violence (military)
and second wave that is felt on June, are now heartless
armed army. The leader, the communist and some others - at my
opinion, - are in prison or in exile. The remaining is a bit of
time to live without problems. A good part of them are pro-war.
We must admit it. The anti-yellow leadership with the anti-com-
munist leadership and the great and many mistakes of
the 23rd rulers have brought us to this - terrible
