OBJECT DESCRIPTION

The front shows the Dolmabache Palace from the Bosphorus. There are some ships in the foreground. The scene shows how large the palace is and how much space it takes up along the water. This shows how much money and wealth was put into the palace to let travelers know that Istanbul was a wealthy city. At the bottom of the card is written 'Istanbul, Dolma Bahce civari, Dolma Bahche et Environs'. On the back is a message written in Greek.
