OBJECT DESCRIPTION

Metal bell. The bell is forged with two pieces of metal that is secured on two sides. There is a small handle where it was attached to the animal. The bell has a rectangular shape.

ORIGIN

Donated by Angelike Mountanis. The bell was used as an animal bell. It was made in Greece and handmade out of forged metal. Most likely used on a smaller animal based on the size of the bell. Based on the forged metal style the circa is 1875-1940.
