OBJECT DESCRIPTION

Wood and cast lead printing block. The print image is a protrait of a male figure. The figure appears to be partially bald. He wears circular framed glasses and has a moustache. The man is wearing a suit, collared shirt and neck tie.

ORIGIN

Donated by John Damianos. The printing block was used in a linotype printing machine. Linotype presses allowed for the casting of entire lines to be printed at a time. Linotype printing was eventually succeeded by lithograph printing and computer typesetting during the 1960's and 1970's. This printing block was used by the Chicago-based, The Greek Art Printing Company. It is unknown who the man in the portrait is.
